

Amendments to the Specification

Please amend the specification as follows.

Please amend paragraph [0013], at page 3, as follows:

~~DISCLOSURE OF INVENTION~~

[0013]

As a conventionally known material of a sealing member, for example, a rubber material such as peroxide-cured, resin-cured, sulfur-cured or quinoid-cured butyl rubber, and peroxide-cured or sulfur-cured ethylene-propylene rubber was described in the Patent Publication 1.

Please amend paragraph [0018], at page 5, as follows:

DISCLOSURE OF INVENTION

[0018]

Through various researches for solving the aforementioned conventional problems, the inventors have finally conceived the present invention.
